Abstracts

The global Fortified Wine market was valued at 1072.14 Million USD in 2021 and will grow with a CAGR of 1% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Fortified wine is considered to be a special wine that is fortified with the presence of additional alcohol that has been added to the base wine during the process of fermentation to bring the average alcohol content up to around seventeen to eighteen percent. The vermouth segment accounted for the major shares and dominated this market. Vermouth is favored by the consumers due to its low content of alcohol and it is comparatively healthy. Factors such as the increasing health consciousness and innovative content will contribute to the growth of the fortified wine market in this industry segment.
