The global Functional Beverages market was valued at 11285.67 Million USD in 2021 and will grow with a CAGR of 4.98% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Functional beverages are drinks that impart health benefits to consumers. These drinks are fortified with several ingredients with various health advantages. Some of the major ingredients of functional beverages include vitamins & minerals, bacterial strain to promote gut health, herbs, amino acids, and others. Increasing health consciousness, coupled with high investments in the R&D sector, is supporting the growth of functional beverages market. A wide range of product availability tends to attract consumers' attention towards the offerings, thereby, facilitating its sale. Additionally, product promotions and celebrity endorsement also play a role in increasing the sales of the product. Escalating fitness trend among consumers is also encouraging new players to enter the market and generate high revenues.
