The global Gel Documentation Systems market was valued at 17.51 Million USD in 2021 and will grow with a CAGR of 4.56% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Gel Documentation Systems refer to equipment widely used in molecular biology laboratories for the imaging and documentation of nucleic acid and protein suspended within polyacrylamide or agarose gels. These gels are typically stained with ethidium bromide or other fluorophores such as SYBR Green. Generally, a gel doc includes an ultraviolet (UV) light transilluminator, a hood or a darkroom to shield external light sources and protect the user from UV exposure, and a CCD or CMOS camera for image capturing. The Gel Documentation Systems industry concentration is not high; there are more than one hundreds manufacturers in the world, and high-end products mainly from U.S. and Western European. Global giant manufactures mainly distributed in U.S. The manufacturers in U.S. have a long history and unshakable status in this field. Manufacturers such as Bio-Rad, Thermo Fisher Scientific and GE Healthcare have relative higher level of product's quality. As to China, Shanghai Tanon take above a half of native production. Most of Chinese manufactures locate in Shanghai city. Many companies have several plants, usually locate in the place close to aimed consumption region. The key consumption markets locate at developed countries. The Europe takes the market share of 31.2%, and United States with 29.4%. China's consumption market

has a quicker growing speed of CAGR 4.4%. We tend to believe this industry becomes more and more mature, and the consumption increasing rate will show a smooth curve.
