### Abstracts

The global Golf Ball market was valued at 963.96 Million USD in 2021 and will grow with a CAGR of .57% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Golf is an individual sport in which player strike a ball with the help of a club from a tee into the hole. The game is enjoyed globally by both players as well as viewers. It's a sport that requires concentration and accuracy, and it is enjoyed by professional and amateurs golfers, both of whom compete throughout the year for titles and prizes. The two main items that a golfer needs to play the game are a golf club and a golf ball. In the forecasted period growth in the market will be primarily driven by increasing participation of women in the golf that is also fashion conscious. Others emerging trends such as rise in golf tourism and advancements in golf technology are expected to drive the market in the forecasted period. In spite of significant growth, market is still facing certain challenges that are obstructing the growth of the market. Currently, challenges faced by the market are rising interest in fantasy golf, seasonality of the game, availability of counterfeit products and elite nature of the game etc.
