The global Golf Equipment market was valued at 5057.96 Million USD in 2021 and will grow with a CAGR of 1.67% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Golf equipment includes various items, which are used to play the sport of golf. These include golf balls, shoes, bags, golf gloves, golf gear, and golf wear, club, club head cover, cart, towels, tees, ball markers, wedges, putters, and other devices that help golfers in various ways. Growing popularity of golf across the world amongst older people and spur in golf tourism is driving the growth of the golf equipment market. The physical activity that golf provides is expected to be helpful. Furthermore, among golfers, mental and physical well being, together with improved performance and socializing are common motivations for playing the sport. There is a spur in golf tourism mainly due to the growing number of golf courses across the world, and increasing popularity of golf tournaments. Various countries are taking initiatives to drive golf tourism in their region. For instance, the tourism minister in India announced that the government would support efforts to entice more foreign golfers to the country's approximately 220 golf courses. The declining number of golfers across the world might hamper the growth of the golf equipment market. According to the National Golf Foundation (NGF) the players who played golf on an actual golf course in 2016 fell by a significant number compared to 2015. However, the NGF reported the number of

golfers who are beginners increased to a significant extent over 2015. Furthermore, the NGF reported that the number of dedicated golfers also grew in numbers. Dedicated golfers include those who call golf one of their several recreational pursuits or a favorite activity.
