Hair brush is a brush with hard or soft bristles used in hair handling to makes hair smooth and stylish. The modern hair brush is created in United States of America by Hugh Rock in 1854. It had both elastic wire teeth and natural bristles. With the development of material and industrial capacity, the hair brush develops more types for different types. The brush stick can have cushion, or be paddle or round. The materials of brush handles are various, including ebony, rosewood, new guinea rosewood, beech, abs plastic, polyacetal, etc., and the bristles also have many material resources, such as boar bristle, horsehair, nylon, stainless steel, and so forth. The largest market of hair brush is Europe and the United States of America. As the first order of developed countries, people have more fond and altitude towards lifestyles. Thus people cost more on hair care than other countries. The following markets are China and Japan, which have large scale of population, and capacity of labor oriented manufacturing.
