The global High Purity Quartz market was valued at 58449.6 Million USD in 2021 and will grow with a CAGR of 4.73% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

High purity quartz is an important raw material in the silicon industry sector. The SiO₂ content is between 99.9-99.99% and Fe₂O₃ content is less than 0.001%. It is widely used in quartz glass, lighting, semiconductor, electronics, fiber optics and other industries. Currently, the factors driving the growth of the aforementioned industry are solar energetics, microelectronics, lighting engineering. As the demand increases rapidly for downstream industries, and the wider range of applications, the demand for High Purity Quartz Sand will correspondingly increase. The increased consumption of High Purity Quartz Sand is expected to continue during the remaining years of the forecast period of 2016-2021. High Purity Quartz Sand industry will usher in a stable growth space. In the past few years, as the main raw material price was relatively stable, with the addition of an increase in production capacity, expected that the High Purity Quartz Sand raw material price will be stable in the short term. However, the improvement of energy, transportation costs, and employee wages, will play a significant role in promoting the cost of High Purity Quartz Sand. There are companies adding new capacities and aims at the cost and quality leadership which shall improve profitability. As the same time, companies are focusing on technological innovation,

equipment upgrades, and process improvements, to reduce costs and improve quality. The competition in High Purity Quartz Sand market will become more intense.
