Abstracts

The global Hook-and-Loop Fasteners market was valued at 2150.42 Million USD in 2021 and will grow with a CAGR of 5.29% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Hook-and-Loop Fasteners commonly consists of two components: typically, two lineal fabric strips (or, alternatively, round 'dots' or squares) which are attached (sewn or otherwise adhered) to the opposing surfaces to be fastened. The first component features tiny hooks, the second features smaller loops. When the two are pressed together the hooks catch in the loops and the two pieces fasten or bind temporarily. When separated, by pulling or peeling the two surfaces apart, the strips make a distinctive 'ripping' sound. The major manufacturers in the industry are Velcro, 3M and APLIX, whose revenue accounts for 22.75%, 8.67% and 8.36% respectively in 2019. According to the region, the Asia Pacific region accounts for the highest revenue, more than 40.79%.
