Abstracts

The global Hosiery market was valued at 2489.2 Million USD in 2021 and will grow with a CAGR of 3.17% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Hosiery are generally known as legwear, specially worn over legs and feet. The various types of hosiery includes body stockings, compression stockings, hold-ups, knee highs, leggings, socks, stockings, tights, toe socks and legwarmers. The term hosiery is also being used for the type of knitted fabric, its weight and thickness. Increasing spending on fashion products coupled with growth in disposable income of consumer is anticipated to drive the demand for the hosiery market during the forecast period. Furthermore, in developing economies, rising preference towards western outfits resulting in higher spending on fashion clothing is in turn projected to drive the demand for hosiery products over the forecast period. Beside this, increasing population across the globe is also projected to drive the demand for hosiery products.
