Abstracts

The global Institutional Furniture market was valued at 216.27 Million USD in 2021 and will grow with a CAGR of 5.66% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Institutional furniture includes companies engaged in producing general purpose institutional furniture for schools, libraries, churches and theaters. These products may be assembled or unassembled and manufactured on a custom or stock basis. Furniture manufacturers are adopting sustainable practices in their manufacturing process. This is mainly a result of growing consumer awareness on sustainable living that is resulting in increasing demand for eco-friendly furniture. This includes minimizing fuel consumption and recycling sheet metal and wood by-products. Companies manufacturing ecofriendly furniture products procure wood from plantations that grow sustainable plants and have a long term conservation policy.
