Abstracts

The global Jigsaw Puzzle market was valued at 65.89 Million USD in 2021 and will grow with a CAGR of 1.48% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Jigsaw Puzzle is a tiling puzzle that requires the assembly of often oddly shaped interlocking and tessellating pieces. Each piece usually has a small part of a picture on it; when complete, a jigsaw puzzle produces a complete picture. In some cases more advanced types have appeared on the market, such as spherical jigsaws and puzzles showing optical illusions. At present, in developed countries, the whole Jigsaw Puzzle industry is generally at a more advanced level. The highest value-added of Jigsaw Puzzle industry is R & D design. This part is captured by US, EU and Japan brand owner. However, foreign companies` manufacturing cost is relatively higher, compared with Chinese companies. The world`s largest production area is concentrated in USA. USA is a major Jigsaw Puzzle producer. It is estimated that about 29% of Jigsaw Puzzle worldwide is made in USA. Competition in the global Jigsaw Puzzle market is intensifying. The high-end of the market is dominated by foreign enterprises while local brands are the mainstay in the medium- to low-end segments of the market. Practically all international toy giants have established their own factories on the mainland or collaborated with local manufacturers to engage in production. Most of the major international toy enterprises have also made their inroads into the China mainland

market by way of appointing sales agents or setting up their own marketing operations there.
