Abstracts

The global Legalized Cannabis market was valued at 1869.24 Million USD in 2021 and will grow with a CAGR of 9.06% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Though cannabis is popular across the globe, it is an illegally utilized drug as its use for various purposes is banned by myriad governments worldwide. The product is referred by names such as marijuana and hemp. In fact, hemp is used for psychological disorders as it has non-psychotic effects on the patients. Marijuana is used for medical or therapeutic purpose as well as recreational use.
