Lingerie is women`s clothing including undergarments, sleepwear, and lightweight robes. The word lingerie is a loanword from French, meaning undergarments, and usually connotes clothing meant to be sexy and alluring. Lingerie is made of lightweight, stretchy, smooth, or sheer fabrics such as lace, silk, satin, charmeuse, and chiffon. The top players cover Marand, Lauma Fabrics, Carvico, Nextil Group, Sanko Textiles, Textil Vertrieb Beratungs, Zhejiang Huachang Textile, Huading, Best Pacific, Sun Hing Industries Holding, HongDa, etc. The Top 3 players in Global market revenue was 17.05% in 2019, while the share of top 5 players was 20.82%. Best Pacific is the leading supplier of Best Pacific, the production of which reached 80449 K KM in 2019, accounting for about 11.54% of the Global market. The market is fragmented, also each company owns a broad product portfolio. Except policy affect, downstream demand is the key influence factor to the market. At present, with the global outbreak of COVID-19 disease, Chinese textile enterprises delay the resumption of production, and export of downstream products manufacturers weak, consumer demand is declining. During the epidemic prevention and control period, the concern of textile enterprises in southeast Asia about the limited supply of raw materials all illustrated the importance of building a

complete industrial chain. This also became the new development trend of the industry during the epidemic.
