Abstracts

The global Lipstick Packaging market was valued at 25.61 Million USD in 2021 and will grow with a CAGR of 5.98% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Lipstick Packaging refers to cosmetic containers or tubs for packaging of lipstick products. Materials used for Lipstick Packaging are mainly Aluminum and various kind of plastic materials. Other materials like bamboo, paper, Platinum and silver, thick wall glass are also but very less used. The political and economic climate of a country is reflected in women's mouths, says the son of cosmetics entrepreneur Estée Lauder. A strong, unique, and sophisticated color cosmetic package is the key to attract consumer and cultivates brand value. Unlike other beauty and skincare products, consumers who shop for color cosmetics are more likely attracted to the packages speaking to them at the point of purchase rather than choosing a brand. This is an advantage and a challenge for brands to find their market share in the highly competitive environment. Lipstick Packaging market consumption is highly impacted by the downstream consumers, lipstick manufacturers play very important roles in lipstick packaging production. Upstream raw materials are affecting the price and gross profit of lipstick packaging products. Major Manufacturers in Lipstick Packaging market include Albal, ILEOS, HCP, World Wide Packaging, LIBO Cosmetics, RPC Group, and many others. They composed of over half market share in 2016. Albal is the biggest market player, with a

series of acquisitions in recent years, it will keep the leader position in the forecast 2017-2022 period.
