LVT is an acronym for 'luxury vinyl tile.' It is a marketing term used by numerous companies to describe their vinyl flooring that is decoratively patterned to emulate the look of natural wood, granite or other types of flooring. There is no exact definition of the term, only generalities. It is not actually a separate category of tiling, simply a way of describing standard vinyl tiling that has been designed to match natural flooring. According to the type, it can be divided into Flexible LVT Flooring and Rigid LVT Flooring. Flexible LVT Flooring is the main product, capturing about 67.57% of global consumption of LVT flooring in 2017.
