Mattresses have evolved over the years. In past years, mattresses were made of hair, feather, and straw. These days, mattresses are made of flexible polyurethane foams, innersprings, latex, and other products. Growing health concerns, problems associated with sleeping disorders, and availability of attractive, stylish, decorative mattresses are the major factors driving the demand for mattresses globally. The applications of new advanced technology like Gribetz Batch Pro Panel Cutter, Sleeptracker technology in mattress production, and new product innovations have changed the scenario of the global mattress market, transforming the market from a low-growth market to a comparatively fast growing one. Currently, the market holds a broad range of products for consumers across all income groups and demographics.
