The global Medium Voltage Ring Main Units market was valued at 3341.51 Million USD in 2021 and will grow with a CAGR of 8.45% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

In an electrical power distribution system, a ring main unit (RMU) is a factory assembled, metal enclosed set of switchgear used at the load connection points of a ring-type distribution network. It includes in one unit two switches that can connect the load to either or both main conductors, and a fusible switch or circuit breaker and switch that feed a distribution transformer. The metal enclosed unit connects to the transformer either through a bus throat of standardized dimensions, or else through cables and is usually installed outdoors. Ring main cables enter and leave the cabinet. This type of switchgear is used for medium-voltage power distribution. The ring main unit was introduced in the United Kingdom and is now widely used in other countries. In North American distribution practice, often the equivalent of a ring main unit is built into a pad-mounted transformer which integrates switches and transformer into a single cabinet. ABB is the leading manufacturer in the global Medium Voltage Ring Main Units market with the market share of 11.39%, in terms of revenue, followed by Schneider Electric, Siemens, Eaton, SOJO, CEEPOWER, Creative Distribution Automation, Toshiba, Larsen & Toubro, Daya Electric, TGOOD, HEZONG, G&W Electric, and Sevenstars Electric. These leading 14 companies accounted for 53.59% of the market share in

2019. Asia-Pacific is the largest downstream regions, occupied about 66.98% of market share, in terms of volume.
