Abstracts

The global Methyl Methacrylate (MMA) market was valued at 934.72 Million USD in 2021 and will grow with a CAGR of 2.98% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Methyl methacrylate (MMA) is an unsaturated ester, with the chemical formula $C_5H_8O_2$. Methyl methacrylate (MMA) is an organic compound that is used principally to manufacture acrylic sheet, moulding/ extrusion compounds, surface coating, PVC impact modifier, etc. In consumption market, the growth rate of global consumption is smooth relatively. North America, Europe and Asia are still the mainly consumption regions due to the advanced production technology and rapid development of economy. We tend to believe this industry is a promising industry, and the consumption increasing degree will show a smooth growth curve. For product prices, the slow upward trend in recent years will maintain in the future as competition intensifies. Besides, prices gap between different brands will go narrowing gradually. Also, there will be fluctuation in gross margin.
