The global Nano-D Connectors market was valued at 112.94 Million USD in 2021 and will grow with a CAGR of 8.25% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Nanominiature or Nano-D connectors are offered as both rectangular and circular high-density assemblies. Most of these tiny interconnects use twist pin contact technology to provide a reliable connection even in harsh conditions that encounter shock and vibration, all with low separation force and engagement. Most nanominiature connectors are based on MIL-DTL-32139 specification for use in aerospace and military applications. Other common applications requiring this miniature connector design include medical, offshore, industrial control and robotics, etc. Nanominiature Connectors mainly used in Military & Defense, Space Application, Aviation & UAV application, Medical Devices and also used in many other industries. In 2019, Military & Defense sector hold a market share of 42.21%. Then followed by the Space Application which account for 30.37%. Also huge demand from Aviation & UAV, Medical Devices and Industrial Application, etc. From perspective of type, Nano-D Connectors can be split into single row Nano-D connectors and dual row Nano-D connectors. In 2019, dual row Nano-D connectors took accounted for nearly 67% market share, which made it the largest segment of global Nano-D Connectors. Omnetics Connector, TE Connectivity, AirBorn, Guizhou Space Appliance and Ulti-Mate Connector etc. are the key players in

the global Nanominiature Connectors market. Top 5 took up more than 69% of the global market in 2019. Omnetics Connector, TE Connectivity, Guizhou Space Appliance are the top three players, which accounts for 55% of the total Nanominiature Connectors market.
