A photo kiosk is an interactive kiosk found in many drugstores, discount stores, and grocery stores. Photo kiosks have a number of different features, but most offer the convenience of submitting photos to be printed, or for resizing or enlarging photos. A photo kiosk offers speed and convenience, but often at a slightly higher price than printing photos at home or online. A Photo Kiosk or Photo printing kiosk is an interactive kiosk which allows users to print pictures from their digital images. With rapid growth in digital cameras and camera phones, the photo industry has not remained the same as it was about 10 years ago. Today people are shooting pictures at a frantic pace and they have more photos to print in a month than what they used to do in 2 to 3 years. Naturally, this has propelled the demand for self-service kiosks where customers can get the print outs quickly at affordable prices.
