The global Refrigerant Leak Detectors market was valued at 71.23 Million USD in 2021 and will grow with a CAGR of 1.9% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Refrigerant Leak Detector has become a crucial tool for many trade professionals. Basically any equipment that is used in air conditioning or for cooling / freezing contains a refrigerant that has the potential to escape from the coils and joints, so leak testing occurs during production of the equipment, installation (if applicable) and periodic maintenance checks throughout the life of the equipment. At present, the manufacturers of Refrigerant Leak Detectors are concentrated in North America, China, Europe, Japan, Southeast Asia, and India. Among them, North America, China and Europe play important roles. The global leading players in this market are Inficon, Robinair, Testo, Bacharach, Ritchie Engineering. Despite the presence of competition problems, due to the increasing demand of freight industry, investors are still optimistic about this area, the future will still have more new investment enter the field. In the next five years, the consumption volume will keep increasing, as well as the consumption value.
