Abstracts

The global Residential Wine Cabinets market was valued at 1396.32 Million USD in 2021 and will grow with a CAGR of .1% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Wine cabinets let people store the bottles for long and short term use. They will not only keep the wine stored properly but they are a good mean if some people want to show their wine cold and by to their friends. Wine stored and served at the right temperature is important for better taste as well as for proper aging of the wine and wine cabinets let people do this. Wine cabinets are also available in different sizes, shapes, color, material and different price range. The huge downstream demand for wine cabinets has been and remains fairly stable. North American wine cabinet production ranks first in the world, with EMEA and APAC ranking second and third. Danby is the world's largest wine cabinet manufacturer, Middelby ranks second; Avanti ranks third in the world. In the next five years, global wine cabinet consumption will further show an upward trend. Despite the intense competition and price decline, due to stable demand, and related industry development. Investors are quite optimistic about this industry. In the near future, more new investors will enter this field.
