The global RV Battery market was valued at 336.95 Million USD in 2021 and will grow with a CAGR of 3.29% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

The battery or batteries used to supply 12-volts to the RV itself are commonly referred to as house batteries. House batteries need to be deep cycle batteries that are designed to provide a steady amount of current over a long period. The global key RV Battery manufacturers include Johnson Controls (Clarios), East Penn Manufacturing, Exide Technologies, EnerSys, Trojan Battery, GS Yuasa, Banner, Lifeline Batteries, U.S. Battery Manufacturing, etc. These players accounted for over 75% of total revenue. Geographically, the demand for recreational vehicles as a mode of transportation in various countries such as the US, the UK, India, Australia, Germany, and New Zealand is increasingly growing due to the growth in the tourism industry. Americas accounted for the majority market share during 2016 and will continue to dominate the RV battery market. It accounted for over 60% of market in 2019. APAC is the fastest-growing region, especially China, which plays a more important role in the world.
