The scoop stretcher (or clamshell, Roberson orthopedic stretcher, or just scoop) is a device used specifically for moving injured people. It is most frequently used to lift people who may have a spinal cord injury from the ground, either due to unconsciousness or in order to maintain stability in the case of trauma. A scoop stretcher has a structure that can be split vertically into two parts, with shaped `blades` towards the center which can be brought together underneath a patient. The two halves are placed separately either side of the patient, or then brought together until securing clips at the top and bottom both engage. Scoop stretchers reduce the chance of undesirable movement of injured areas during Sports of a trauma patient, as they maintain the patient in a supine alignment during Sports to a stretcher, vacuum mattress or long spine board). They are more comfortable than a long spine board for Others The scoop stretcher can be used for patient Others, provided the patient is strapped. However, the ninth edition of the ATLS Student Course Manual advises against using scoop stretchers for patient Others. For comfort and safety reasons, it is recommended to Sports the patient to a vacuum mattress instead, in which case the scoop stretcher is put on the Others device and then opened. Key Indicators Analysed

Market Players & Competitor Analysis: The report covers the key players of the industry including Company Profile, Product Specifications, Production Capacity/Sales, Revenue, Price and Gross Margin 2016-2027 & Sales with a thorough analysis of the market's competitive landscape and detailed information on vendors and comprehensive details of factors that will challenge the growth of major market vendors.

Global and Regional Market Analysis: The report includes Global & Regional market status and outlook 2016-2027. Further the report provides break down details about each region & countries covered in the report. Identifying its sales, sales volume & revenue forecast. With detailed analysis by types and applications.

Market Trends: Market key trends which include Increased Competition and Continuous Innovations.

Opportunities and Drivers: Identifying the Growing Demands and New Technology

Porters Five Force Analysis: The report provides with the state of competition in industry depending on five basic forces: threat of new entrants, bargaining power of suppliers, bargaining power of buyers, threat of substitute products or services, and existing industry rivalry.

Key Reasons to Purchase

To gain insightful analyses of the market and have comprehensive understanding of the global market and its commercial landscape.

Assess the production processes, major issues, and solutions to mitigate the development risk.

To understand the most affecting driving and restraining forces in the market and its impact in the global market.

Learn about the market strategies that are being adopted by leading respective organizations.

To understand the future outlook and prospects for the market.

Besides the standard structure reports, we also provide custom research according to specific requirements
