Abstracts

The global Ski Clothing market was valued at 1198.1 Million USD in 2021 and will grow with a CAGR of 2.02% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Ski Clothing refers to the cloth which is worn during the snow sports like ski sport or snowboarding sport, and use performance fabrics. The Ski Clothings industry concentration is relatively lowhigh; there are many manufacturers in the world, and about half of the production are produced in China. There are many international companies set up factories in China either, such as Lufuma whose plant is located in East China. The key consumption markets locate at developed countries. The Europe takes the market share of 29%, followed by North America with 28%. We tend to believe this industry becomes more and more mature, and the consumption increasing rate will show a smooth curve.
