## Abstracts

The global Solid Surface & Other Cast Polymers market was valued at 179.55 Million USD in 2021 and will grow with a CAGR of 7.73% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

The cast polymer industry is multifaceted. Its many products, however, can be grouped into three general categories, differentiated by the materials and manufacturing methods used, as engineered composites, solid surface, engineered stone. The cast polymer offer strength and durability in kitchens and bathrooms, making them a popular choice with homeowners, builders and decorators. In 2017, the largest consuming region was Asia, followed by North America and Europe; China was the largest consuming country, with 30.7% of the total. The solid surface & other cast polymers industry is mature and largely dependent on general economic conditions. Consumption growth will be highest in North America, with CAGR of about 7.6% for 2017-2024; China's consumption will increase at an average annual rate of 5.6% during 2017-2024. At present, the industry is highly fragmented due to the abundant raw materials and relatively simple technology. Hundreds of manufacturers are located around the world. The top five global manufacturers only hold 8% of global production share. Among these manufacturers, Cosentino, DuPont, Caesarstone, Cambria and Compac are major global leaders. Quality solid surface or quartz stone is used for a range of applications such as kitchen countertops, bathroom vanities and counters, and custom

solutions for home and commercial interiors. Globally, the solid surface & other cast polymers market is mainly driven by growing demand for residential application. To increase the profitability and competitiveness, solid surface & other cast polymers manufacturers increased investment in the R&D and product design process.
