Abstracts

The global Spirit Levels market was valued at 406.77 Million USD in 2021 and will grow with a CAGR of 3.58% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Spirit levels are a device for determining true horizontal or vertical directions by the centering of a bubble in a slightly curved glass tube or tubes filled with alcohol or ether. The Spirit Levels industry can be broken down into several segments, Standard Spirit Levels and Digital Spirit Levels. The Asia Pacific is expected to be the fastest-growing market over the forecast period owing to extensive usage in the Construction and Renovation field. This can primarily be attributed to the considerable Chinese market, which contributes significantly to global volume as well as revenue generation. Although average selling prices are lower in the Asia Pacific, high demand is expected to result in sizable market revenue over the next five years. For the Spirit Levels industry, the market is concentrated. EPRECT, STANLEY and Stabila are the leader companies globally. The 17 players listed in the report accounted for over 80% of the market. In this study, the sales market for Spirit Levels was divided into five geographic regions. Asia-Pacific occupied the largest sales market share with 39% in 2019. It is followed by Europe and North America. The consumption of Spirit Levels is related to downstream industries and the global economy. As there will always be some uncertainty in the global economy in the following years, the growth rate of Spirit Levels industry

may not keep that fast. But it is surely forecasted that the market of Spirit Levels is still promising. On the basis of product type, Standard Spirit Levels type segment is projected to account for the largest consumption value market share during the forecast period; this segment was estimated to account for 60% share in 2019 in terms of consumption value. It is predicted that digital spirit levels will have larger market share because of the precision and convenience. In the applications, Construction and Renovation segment was estimated to account for the highest market share of 66% in 2019. Metal and Wood Processing held 21% of the market.
