## Abstracts

The global SSRs (Solid State Relays) market was valued at 87.56 Million USD in 2021 and will grow with a CAGR of 5.06% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

SSRs (Solid State Relays) have no movable contacts. SSRs are not very different in operation from mechanical relays that have movable contacts. SSRs, however, employ semiconductor switching elements, such as thyristors, triacs, diodes, and transistors. SSRs consist of electronic parts with no mechanical contacts. Therefore, SSRs have a variety of features that mechanical relays do not incorporate. The greatest feature of SSRs is that SSRs do not use switching contacts that will physically wear out. SSRs are ideal for a wide range of applications due to the following performance characteristics. In the coming years there is an increasing demand for Solid State Relay in the regions of China, North America and Europe that is expected to drive the market for more advanced Solid State Relay. Increasing of Industrial Automation Equipment, Building Automation fields expenditures, More-intense competition, Launches in introducing new products, Retrofitting and renovation of old technology, Increasing adoption of Solid State Relay will drive growth in China, United States and Europe markets. There are many manufacturers including OMRON, Panasonic, Crydom, Fujitsu Limited, Jinxinrong, IXYS, AVAGO, TE, CELDUC, Sharp, Siemens, Rockwell Automation, OPTO22, Schneider, Carlo gavazzi, JiangSu GIOD Electrical Control Technology,

Vishay, Bright Toward and CLION, The largest manufacturer is OMRON, whose market share is 13.53% in 2017. The consumption volume of Solid State Relay is related to downstream industries and global economy. As there will always be some uncertain in the global economy in the following years, the growth rate of Solid State Relay industry may not keep that fast. But it is surely forecasted that the market of Solid State Relay is still promising.
