Abstracts

The global Studio Headphones market was valued at 11.16 Million USD in 2021 and will grow with a CAGR of 7.2% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

A natural and detailed sound, an effective noise attenuation and the ability to handle high volume levels should be in the DNA of every headphones made to cope with the studio routine, as well as a robust construction and excellent wearing comfort. Studio Headphones industry has much fragmented, manufacturers are mostly in the North America. Among them, North America Production value accounted for less than 31.65% of the total value of global Studio Headphones in 2016. Beyerdynamic is the world leading manufacturer in global Studio Headphones market with the market share of 5.93% in 2016. In the past few years, as the main raw material price was reduced, with the increasing in production capacity, expected that the Studio Headphones raw material price will be stable in the future. However, the improvement of energy, transportation costs, and labor costs, will play a significant role in promoting the cost of Studio Headphones.
