Sunflower oil is the non-volatile oil compressed from sunflower seeds. Sunflower oil is produced by compressing sunflower seeds commonly used for human consumption. Crude sunflower oil has a pleasant odor of sunflower and a mild taste. The global market of sunflower oils is a competitive market with lots of local and multinational manufacturers, they are Kernel, EFKO Group, Aston, Cargill and Optimus, etc. As a result, the concentration of sunflower oil market is very low. Top 5 players only account for less than a quarter of global market share in terms of production. Russia is the largest consumer of sunflower oil, with a global market share of 20%. China and USA are the developing countries in term of sunflower oil consumption, where people eat more and more sunflower oil products.
