The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

A toaster, or a toast maker, is an electric small appliance designed to brown sliced bread by exposing it to radiant heat, thus converting it into toast. Toasters can toast multiple types of sliced bread products. Invented in Scotland in 1893, it was developed over the years, with the introduction of an automatic mechanism to stop the toasting and pop the slices up. China is the biggest production areas for Toasters, taking about 73.41% market share in 2016 (based on output volume). Europe followed the second, with about 12.09% market share in 2016 (based on revenue). In Consumption market, sales of Toaster are concentrated in Europe and North America Regions for now, while consumers groups are expanding fast today in some Asia countries like China, Japan, Korea and etc., Southeast Asia and India are big potential markets for the coming decades. In the past few years, the price of Toasters show a decreasing trend in recent years and we expect the price may keep the trend in a short period. However, the improvement of energy, transportation costs, employee wages, and equipment depreciation will play a significant role in promoting the cost of Toasters. Therefore, to some extent, the companies are facing a risk of profit decline. There are companies adding capacities and aiming at the cost and quality leadership which shall improve

profitability. At the same time, companies are focusing on technological innovation, equipment upgrades, and process improvements, to reduce costs and improve quality. The total competition market for Toasters may become more weakened, while the market is going to be more concentrated for high end Toasters.
