Train Coatings are coatings used in Train vehicles. Japan, Spain, and China are known for the world's largest Train systems. There is a surge in the demand for Train across the globe. With more than 52% of the world's population living in urban areas, which is to reach around 66% by the year 2050, the demand for high level transportation system at cheaper rates is growing. Growing populations are driving the growth in the number of megacities. Recently, several Train projects have been approved in Spain, Italy, Estonia, Switzerland, the Netherlands, Malaysia, China, and Canada's Ontario. These factors are expected to increase the demand for Train, which in turn, are likely to increase the usage of Train coatings.
