Abstracts

The global Wood Furniture market was valued at 2009.54 Million USD in 2021 and will grow with a CAGR of 4.35% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Wooden Furniture refers to furniture made of solid wood. For industry structure analysis, the Wood Furniture industry is not concentrated. These manufacturers range from large multinational corporations to small privately owned companies compete in this industry. The top five producers account for about 7.06 % of the revenue market. Regionally, China is the biggest revenue market, also the leader in the whole Wood Furniture industry. China occupied 28.25% of the revenue market in 2017. It is followed by Europe and North America which respectively accounted for around 25.73% and 20.83% of the global total industry. Other countries have a smaller amount of revenue market. For price trend analysis, a key variable in the performance of Wood Furniture producers is raw material costs, specifically the speed at which any increase can be passed through to customers.
