Abstracts

IAL Consultants is pleased to announce the publication of the new edition of its study on the markets for Thermal Insulation Products in Europe.

Built upon IAL's expertise in the global thermal insulation markets, the study details demand for 2018 and provides anticipated market figures for 2023. Forecast years are presented and market rankings (or market shares where available) of Europe's leading insulation companies are indicated, by both country and product type. Market influences and trends are also outlined.

The report covers 26 countries (including all major European thermal insulation markets) split into 14 individual country volumes covering the most commonly used insulation materials. An additional 4 volumes focus on a specific insulation material individually (mineral fibre, EPS, XPS & PU/PIR) and present data for the regions of Western and Eastern Europe, and then for the same 26 countries.

Buyers of the full study will receive IAL's specially compiled Executive Summary Volume free of charge.

Market data is given in cubic metres, tonnes and euros. The following market breakdown is provided:

End-use Sectors Covered:

Building

Domestic Buildings – Flooring

Domestic Buildings – Roofing

Domestic Buildings – Wall

Commercial Buildings

Cold Stores

Agricultural Storage

Industry

Pipe Lagging

Domestic Appliances

Transport

Process Plant

The contents of the report are based on a thorough investigation of the European markets, which includes extensive primary research across these throughout the first half of 2019, and an examination of relevant secondary sources and statistics.
