## Abstracts

IAL Consultants is pleased to announce the publication of fully updated and redesigned edition of our popular regional directory of polyurethane systems houses. This complements IAL's ongoing research into the global polyurethanes industry.

These reports provide a comprehensive directory of PU systems houses – approximately 108 companies in EMEA – with their full contact details, systems types, product ranges, production capacity, etc. They also profile the major global systems manufacturers and include details on all their regional systems houses.

REGIONAL COVERAGE IS AS FOLLOWS:

Europe, Middle East & Africa (EMEA)

INFORMATION PROVIDED FOR EACH SYSTEMS HOUSE (where available):

Contact details

Company profile

Ownership

Number of employees

Annual turnover

Systems applications/types

Trade names

System production capacity

#### METHODOLOGY:

Where possible the information contained in the profiles has been gathered from the companies themselves. Where this has not been possible, a variety of public domain sources have been used, backed up by IAL's in-depth knowledge of the global polyurethane industry and markets.
