Abstracts

Food waste is a global problem but there are many ways businesses can make money from food waste.

Rather than boring you with statistics, this report has collected hundreds of ways existing and new businesses can save and make money from food waste.

Ten examples:

Grape skins into drink

Mushroom beer

Edible packaging

Fruit powders

Olive waste into fuel

Water into jet fuel

Food waste into tyres

Potato leaves into legal drugs

Coffee grounds into energy

Pineapple leaves into textiles

Why buy this report

It could save your business money

It could give you ideas for new revenue streams

It could give you ideas for a new business

It will lift you to see how a problem can be made into an opportunity

Companies mentioned include:
