Abstracts

This study covers the world outlook for molded case circuit breakers across more than 190 countries. For each year reported, estimates are given for the latent demand, or potential industry earnings (P.I.E.), for the country in question (in millions of U.S. dollars), the percent share the country is of the region, and of the globe. These comparative benchmarks allow the reader to quickly gauge a country vis-à-vis others. Using econometric models which project fundamental economic dynamics within each country and across countries, latent demand estimates are created. This report does not discuss the specific players in the market serving the latent demand, nor specific details at the product level. The study also does not consider short-term cyclicalities that might affect realized sales. The study, therefore, is strategic in nature, taking an aggregate and long-run view, irrespective of the players or products involved.

This study covers molded case circuit breakers as defined by the North American Industrial Classification system or NAICS (pronounced "nakes").

The NAICS code for molded case circuit breakers is 3353135. It is for this definition that aggregate latent demand estimates are derived. Molded case circuit breakers is specifically defined as follows:

3353135 Molded case circuit breakers

33531350 Fuses and fuse equipment, less than 2300 volts, except power distribution cut~ outs

33531351 Fuses and fuse equipment less than 2300 volts (except power distribution cut outs)

3353135000 Fuses and fuse equipment, less than 2300 volts, except power distribution cut~outs

3353135001 Nonrenewable plug fuses

3353135004 Nonrenewable cartridge fuses

3353135007 Renewable plug and cartridge fuses, including renewable links

3353135011 Other fuses and open fuse material, including cutouts, clips, bases, etc

3353135100 Fuses and fuse equipment less than 2300 volts (except power distribution cut outs)

3353135101 Fuse and fuse equipment (except power distribution cutouts), under 2,300 volts, nonrenewable plug type
