Abstracts

This study covers the latent demand outlook for broadwoven fabrics made from at least 85-percent manmade filament yarns excluding rayon, acetate, and lyocell across the states and zip codes of the United States. Latent demand (in millions of U.S. dollars), or potential industry earnings (P.I.E.) estimates are given across some 10,833 zip codes in the United States. For each zip code in question, the percent share the zip code is of its state and of the United States as a whole is reported. These comparative benchmarks allow the reader to quickly gauge a zip code vis-à-vis others. This statistical approach can prove very useful to distribution and/or sales force strategies. Using econometric models which project fundamental economic dynamics within each state and zip code, latent demand estimates are created for broadwoven fabrics made from at least 85-percent manmade filament yarns excluding rayon, acetate, and lyocell. This report does not discuss the specific players in the market serving the latent demand, nor specific details at the product level. The study also does not consider short-term cyclicalities that might affect realized sales. The study, therefore, is strategic in nature, taking an aggregate and long-run view, irrespective of the players or products involved.

This study covers broadwoven fabrics made from at least 85-percent manmade filament yarns excluding rayon, acetate, and lyocell as defined by the North American Industrial Classification system or NAICS (pronounced "nakes").

The NAICS code for broadwoven fabrics made from at least 85-percent manmade filament yarns excluding rayon, acetate, and lyocell is 313210G1. It is for this definition that aggregate latent demand estimates are derived. Broadwoven fabrics made from at least 85-percent manmade filament yarns excluding rayon, acetate, and lyocell is specifically defined as follows:

313210G1 Manmade fiber broadwoven fabrics of 85 percent or more filament yarns (excluding rayon, acetate, and/or lyocell) (gray goods)

313210G100 Manmade fiber broadwoven fabrics of 85 percent or more filament yarns (excluding rayon, acetate, and/or lyocell) (gray goods)

313210G102 Broadwoven high tenacity yarn fabrics (gray goods), 100 percent nylon and chiefly nylon

313210G104 Broadwoven high tenacity yarn fabrics (gray goods), 100 percent polyester and chiefly polyester

313210G109 Broadwoven fabrics (gray goods), 85 percent or more filament yarn obtained from strip (except rayon and/or acetate)

313210G111 Broadwoven typewriter and other impression fabrics (gray goods), 85 percent or more filament nylon

313210G114 Broadwoven flat, nontextured fabrics (except typewriter and other impression fabrics) (gray goods), 85 percent or more filament nylon, weighing 5 oz or less per square yard

313210G117 Broadwoven (except flat, nontextured) fabrics (except typewriter and other impression fabrics) (gray goods), 85 percent or more filament nylon, weighing 5 oz or less per square yard

313210G121 Broadwoven flat, nontextured fabrics (except typewriter and other impression fabrics) (gray goods), 85 percent or more filament nylon, weighing more than 5 oz per square yard

313210G126 Broadwoven (except flat, nontextured) fabrics (except typewriter and other impression fabrics) (gray goods), 85 percent or more filament nylon, weighing more than 5 oz per square yard
