## Abstracts

This study covers the latent demand outlook for yeast across the states, union territories, and cities of India. Latent demand (in millions of U.S. dollars), or potential industry earnings (P.I.E.) estimates are given across over 4,900 cities in India. For each city in question, the percent share the city is of its state or union territory and of India as a whole is reported. These comparative benchmarks allow the reader to quickly gauge a city vis-?-vis others. This statistical approach can prove very useful to distribution and/or sales force strategies. Using econometric models which project fundamental economic dynamics within each state, union territory, and city, latent demand estimates are created for yeast. This report does not discuss the specific players in the market serving the latent demand, nor specific details at the product level. The study also does not consider short-term cyclicalities that might affect realized sales. The study, therefore, is strategic in nature, taking an aggregate and long-run view, irrespective of the players or products involved.

In this report we define the sales of yeast as including all commonly understood products falling within this broad category, irrespective of product packaging, formulation, size, or form. Companies participating in this industry include AB Mauri, ADM, AGENCIAS LEVAPAN, Agrano GmbH & Company, Algist Bruggeman, Alltech, American Yeast Sales Corporation, Amyris Brasil, Ltd.a, Anchor Yeast, Angel Yeast Company, Archer Daniels Midland Company, Asmussen GmbH, Associated British Foods, Australian Pesticides and Veterinary Medicines Authority (APVMA), Bakon Yeast, Inc., Baldem Food Ingredients, Barentz, Bintani, Bio Agro, Biocare Copenhagen A/S, Biomin, Biorigin, Biosev, BioSpringer, Butalco, C5 Yeast Company B.V., Canadian Food Inspection Agency (CFIA), Carbery Food Ingredients, Cargill, Chr.
