## Abstracts

This study covers the world outlook for cat foods across more than 190 countries. For each year reported, estimates are given for the latent demand, or potential industry earnings (P.I.E.), for the country in question (in millions of U.S. dollars), the percent share the country is of the region, and of the globe. These comparative benchmarks allow the reader to quickly gauge a country vis-à-vis others. Using econometric models which project fundamental economic dynamics within each country and across countries, latent demand estimates are created. This report does not discuss the specific players in the market serving the latent demand, nor specific details at the product level. The study also does not consider short-term cyclicalities that might affect realized sales. The study, therefore, is strategic in nature, taking an aggregate and long-run view, irrespective of the players or products involved.

This study covers cat foods as defined by the North American Industrial Classification system or NAICS (pronounced "nakes").

The NAICS code for cat foods is 3111114. It is for this definition that aggregate latent demand estimates are derived. Cat foods is specifically defined as follows:

3111114 Cat food

31111141 Canned cat food, fish base

31111142 Canned cat food, meat base or other

31111143 Cat food, dry or semi moist

311111401 Canned cat food

311111402 Dry and semimoist cat food

3111114111 Canned cat food, fish base

3111114221 Canned cat food, meat base

3111114231 Other canned cat food (ration meat base)

3111114341 Dry cat food
