Abstracts

This study covers the world outlook for medical carts across more than 190 countries. For each year reported, estimates are given for the latent demand, or potential industry earnings (P.I.E.), for the country in question (in millions of U.S. dollars), the percent share the country is of the region, and of the globe. These comparative benchmarks allow the reader to quickly gauge a country vis-à-vis others. Using econometric models which project fundamental economic dynamics within each country and across countries, latent demand estimates are created. This report does not discuss the specific players in the market serving the latent demand, nor specific details at the product level. The study also does not consider short-term cyclicalities that might affect realized sales. The study, therefore, is strategic in nature, taking an aggregate and long-run view, irrespective of the players or products involved.

In this report we define the sales of medical carts as including all commonly understood products and/or services falling within this broad category, irrespective of product packaging, formulation, size, or form. Companies participating in this industry include Advantech, AFC Industries, Altus, Inc., Armstrong Medical, BiHealthcare, Capsa Healthcare, Chang Gung Medical Technology Company, Enovate Medical, Ergotron, Hanlim Medical Equipment Company, Ltd., Harloff, Hergo Ergonomic Support Systems, Inc., Herman Miller, Hua Shuo Plastic Company, Ltd., InterMetro Industries Corporation, ITD, Jaco, Inc., Jegna, Joson-Care Enterprise Company, Ltd., Lifemedic Health care Supplies Pte, Ltd., Life-Medic HealthCare Supplies Pte, Ltd., McKesson Medical-Surgical, Medical Master, Medline Industries, Merino International, Midmark Corporation, Moore Medical LLC (subsidiary of McKesson Medical-Surgical), Nortek, Omnicell, Performance Health, Ruilang Medical Equipment Company, Ltd., The Bergmann Group, Tianjin Xuhua Medical Equipment Factory, Tonglu Rex Medical Instrument Company, Ltd., and Zhangjiagang Bestran Technology Company, Ltd.. In addition to the sources indicated, additional information available to the public via news and/or press releases published by players in the industry was considered in defining

and calibrating this category. All figures are in a common currency (U.S. dollars, millions) and are not adjusted for inflation (i.e., they are current values). Exchange rates used to convert to U.S. dollars are averages for the year in question. Future exchange rates are assumed to be constant in the future at the current level (the average of the year of this publication's release in 2024).
