Abstracts

This report was created for global strategic planners who cannot be content with traditional methods of segmenting world markets. With the advent of a 'borderless world', cities become a more important criteria in prioritizing markets, as opposed to regions, continents, or countries. This report covers the top 2,000 cities in over 200 countries. It does so by reporting the estimated market size (in terms of latent demand) for each major city of the world. It then ranks these cities and reports them in terms of their size as a percent of the country where they are located, their geographic region (e.g. Africa, Asia, Europe, Middle East, North America, Latin America), and the total world market.

In this report we define the sales of stem cell technologies and applications as including all commonly understood products and/or services falling within this broad category, irrespective of product packaging, formulation, size, or form. Companies participating in this industry include Aastrom Biosciences, Advanced Cell Technology, AgeX Therapeutics, Alder Biopharmaceuticals, Alkerm, AllCells, Allergan, AlloSource, Americord, Amgen, Angiocrine Bioscience, Anterogen, Apceh, Arterioocyte, Associated Press, Astellas Pharma, Asterias Biotherapeutics, Athersys, Auriga Ventures, Axiogenesis, Bank a Tooth, Baxter, BaYi Brain Hospital, BioCardia, BioE, Biogenea-Cellgenea, BIOHEART, Biologic Therapies, BioMet Orthopedics, Biosciences, Biotechnology, BioTime, Blackstone, Bloodworks, Bluebird Bio, Brain Somatic Mosaicism, Caladrius Biosciences, California Institute for Regenerative Medicine (CIRM), Calimmune, Capricor, Cardio3, Caribou, Carolinas Cord Blood Bank (CCBB), Casey Eye Institute, Cedars-Sinai Heart Institute, Celgene, Cell Cure Neurosciences, CellCentric, Celectis, Cellerant Therapeutics, Cellerix, CELLTREE, Cellular Biomedicine Group, Center for International Blood and Marrow Transplant Research (CIBMTR), Cephalon, Cesca Therapeutics, Ceylad, China Cord Blood, Chugai
