Date: May 2023

Pages: 192

Price: US\$ 795.00 (Single User License)

ID: W298DA04BFBEN

Abstracts

This report was created for strategic planners, international executives, and import/export managers who are concerned with the market for original sculptures and statuary. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics that appear several years after the fact. Professor Philip M. Parker, the Chair Professor of Management Science at INSEAD, has developed a methodology, based on macroeconomic and trade models, to estimate the market for original sculptures and statuary for those countries serving the world market via exports or supplying from various countries via imports. He does so for the current year based on a variety of key historical indicators and econometric models.

'Original sculptures and statuary' as a category is defined in this report following the definition given by the United Nations Statistics Division Classification Registry using the Standard International Trade Classification, Revision 3 (SITC, Rev. 3). The SITC code that defines 'original sculptures and statuary' is 8963.

Contents

1 METHODOLOGY

1.1 OUR APPROACH

2 THE WORLD MARKET

2.1 EXPORTS

2.1.1 THE WORLD MARKET: ORIGINAL SCULPTURES AND STATUARY EXPORT SUPPLIES IN 2024
