## Abstracts

The Asia-Pacific market includes Japan, South Korea and Australia. The aging population and demand for superior dental aesthetics will drive the dental prosthetics market over the 2011–2018 forecast period. Australia has increasingly been affected by the outsourcing of dental prosthetics, while Japan continues to be affected by some level of economic uncertainty. However, the increasing penetration rate of CAD/CAM technology will offset each of these effects and increasingly drive the dental prosthetics market.
