Abstracts

In 2012, the total Brazilian market for wound and tissue management was valued at nearly \$632 million.

The Brazilian wound and tissue management market includes moist, antimicrobial and interactive wound dressings; negative pressure wound therapy, bandages, wound closure devices, hemostats, tissue sealants, and anti-adhesion products. These products treat a variety of wounds including surgical incisions, burns, and ulcers.

The Brazilian wound and tissue management market is expected to be driven by a growing economy and increasing healthcare expenditures. Technological developments such as silver-embedded antimicrobial dressings and negative pressure wound therapy are also driving the market as they experience rapid growth.

Scope: This report pertains to a forecast period of 10 years (2008 – 2018) for Brazil.
