Abstracts

The European market for gastrointestinal endoscopic devices was valued at more than €793 million in 2009. These devices include:

GI endoscopes

Capsule endoscopy devices

Stenting devices

Dilation balloons

Endoscopic retrograde cholangiopancreatography (ERCP) devices

Biopsy forceps

Cytology brushes

Polypectomy snares

Hemostasis devices

Enteral feeding products

The increasing frequency of colon cancer screening across Europe is driving many types of GI procedures and will sustain growth over the forecast period. Countries

covered in this report include:

Austria

Benelux

France

Germany

Italy

Portugal

Scandinavia

Spain

Switzerland

The U.K.

Within the European market for gastrointestinal endoscopic, companies such as Boston Scientific, Cook Medical, Fujinon and Olympus lead the market. This report provides a comprehensive and detailed analysis of market revenues by device type, market forecasts through 2016, unit sales, average selling prices, market drivers and limiters and a detailed competitive analysis, including manufacturer market shares and product portfolios.
