## Abstracts

The French market for dental implants was the fourth largest in Europe in 2010. Acceptance of dental implants among French dentists was still relatively low and the cost of dental implant procedures was relatively high. With dental implant training courses, acceptance of implants will increase over the forecast period, resulting in robust dental implant market growth. The French market was dominated by large, international implant companies that sponsored the majority of these training courses in 2010. However, several notable domestic dental implant companies captured greater market share as they offered competitive prices on their products and offered localized services to domestic dentists.

This market segments covered in this report include:

Root-form dental implants

Non-root form dental implants

Dental implant applications

Mini-implants

Final abutments including:

Stock abutments

Custom abutments

CAD/CAM Abutments

The report also segments the dental implant market:

By procedure type

By shape

By connection type

By prosthetic application

By bone grafting

By computer guided surgery

Within the dental implant and final abutment market, companies such as Biomet/3i , DENTSPLY, Nobel Biocare and Straumann lead the market, among many others. This report provides a comprehensive and detailed analysis of market revenues by device type, market forecasts through 2017, unit sales, average selling prices, market drivers and limiters and a detailed competitive analysis, including manufacturer market shares and product portfolios.
