Abstracts

The German dental prosthetics market is the largest in Europe. This is mainly attributed to the size of the Germany is population, which is the second largest Europe. The German dental prosthetics market is also driven by superior research, development, engineering and manufacturing sectors in the country, which is apparent from the many dental companies that have emerged from Germany. This report also includes the following market segments:

Crown and Bridge Market

Denture Market

CAD/CAM System Market

CAD/CAM Block and Prosthetic Market

The aging population and demand for superior dental aesthetics are driving the prosthetics market. The global economic recession of 2008 and 2009 resulted in a slowdown in total market growth; however, the market began to recover in 2010 and is expected to experience accelerating growth by 2017. CAD/CAM manufactured prosthetics are expected to represent the fastest growing segment while the CAD/CAM system market will exhibit high unit growth rates over the forecast period.

This report provides a comprehensive and detailed analysis of market revenues by device type, market forecasts through 2017, unit sales, average selling prices, market drivers and limiters and a detailed competitive analysis, including manufacturer market

shares and product portfolios.
