Abstracts

The Polish dental implant market had the lowest per capita dental implant rate among countries covered in this report, at 17 implants per 10,000 people. The primary reason for this low rate was that Poland is still a developing country with a relatively low GDP per capita. Awareness of dental implants is still relatively low, especially outside of major cities. The Polish dental implant market has great potential for future growth due to increasing awareness of implants, high edentulism rates and the country's population.

This market segments covered in this report include:

Root-form dental implants

Non-root form dental implants

Dental implant applications

Mini-implants

Final abutments including:

Stock abutments

Custom abutments

CAD/CAM Abutments

The report also segments the dental implant market:

By procedure type

By shape

By connection type

By prosthetic application

By bone grafting

By computer guided surgery

Within the dental implant and final abutment market, companies such as Biomet/3i , DENTSPLY, Nobel Biocare and Straumann lead the market, among many others. This report provides a comprehensive and detailed analysis of market revenues by device type, market forecasts through 2017, unit sales, average selling prices, market drivers and limiters and a detailed competitive analysis, including manufacturer market shares and product portfolios.
