## Abstracts

In 2008, the U.S. market for video and high-tech equipment was valued at \$1.27 billion, a 13.3% increase over 2007. This market includes integrated operating rooms (ORs), surgical lighting, surgical tables, insufflation devices, endoscopic surgical cameras, light sources, surgical headlights, surgical displays, medical printers, and digital image capture devices. The market is predicted to continue growing through the forecast period, driven by growth in the number of procedures performed in ORs, OR integration and the conversion to High Definition (HD) video equipment.
